REAL TIME EMAIL VERIFICATION

Email accuracy is a huge component driving our business in today's digital age. Don't risk human error that occurs with other vendors. All of our projects include real time email verification at no additional charge. Our technology performs a real time verification process consisting of:

1. Syntax verification
2. SMTP verification
3. Confirmation email verification

AUDIENCE MARKETING & LEAD GENERATION

Our Sr. TeleServices Strategist, Sebio DelaPena, has been helping Audience Marketers achieve their objectives for the past 16 years. We have successfully performed and passed audits for some of the largest media companies in the industry, including Penton Media, PennWell Publishing and 1105 Media. PhonetiCall provides a unique Audience Marketing toolkit for you to drive success beyond the traditional telemarketing programs.

SOCIALLY SOURCED DATA

Data is king! Socially sourced data is a real time live database, providing you with the most accurate business intelligence on the market.

PhonetiCall gives you the ability to correct and prevent data decay, enrich existing databases with additional fields of information, and provide you access to over 300 million professionals for new audience prospecting.

Socially sourced data also provides some unique data points, which add tremendous value and give you a competitive advantage.

PhonetiCall provides tools to help you monetize your Audience. We offer content marketing programs to supplement internal efforts, ensuring you meet your lead commitments. Our programs guarantee we speak with decision makers directly, gain opt ins to accept your asset, and deliver the content in real time via email.
